

AgileTech Studio

Company Overview | Internal Reference Document | 2026

About Us

AgileTech Studio is a software product studio headquartered in Lahore, Pakistan, founded in 2015 by CEO Imran Sheikh. The company designs and builds custom digital products — web platforms, mobile apps, and data systems — for clients across e-commerce, healthcare, fintech, and education. AgileTech Studio currently employs 25 full-time staff across three offices.

Active Client Engagements

As of August 2026, AgileTech Studio is delivering three active client projects — NovaCart for RetailPro Inc., MedLink for HealthBridge Ltd., and the newly signed EduSphere for LearnWave Academy — alongside FinTrack, completed for Capital Insights in February 2025 and now in maintenance mode. Full project details, team assignments, and technology choices are documented in Projects.xlsx and Technology_Stack.pdf.

Mission

To help ambitious companies ship reliable, well-engineered software by pairing small, senior-led teams with a disciplined, transparent delivery process.
